

STOMACH TROUBLE FOR FIVE YEARS

Majority of Friends Thought Mr. Hughes Would Die, But One Helped Him to Recovery.

Pomeroyton, Ky.—In interesting advices from this place, Mr. A. J. Hughes writes as follows: "I was down with stomach trouble for five (5) years, and would have sick headache so bad, at times, that I thought surely I would die. I tried different treatments, but they did not seem to do me any good. I got so bad, I could not eat or sleep, and all my friends, except one, thought I would die. He advised me to try Thedford's Black-Draught, and quit

taking other medicines. I decided to take his advice, although I did not have any confidence in it.

I have now been taking Black-Draught for three months, and it has cured me—haven't had those awful sick headaches since I began using it.

I am so thankful for what Black-Draught has done for me."

Thedford's Black-Draught has been found a very valuable medicine for derangements of the stomach and liver. It is composed of pure, vegetable herbs, contains no dangerous ingredients, and acts gently, yet surely. It can be freely used by young and old, and should be kept in every family chest.

Worth Knowing.

F cents worth of whiting kept in a bath room closet is a cheap and quick polisher of nickel fixings.

If oil cloth is given a coat of varnish twice a year it wears longer, is more easily kept clean and does not lose the pattern.

A paste of thick starch and water put on blood stains and allowed to stand for a short time will remove them when not too old.

In cutting bread for sandwiches, if a hot instead of cold knife is used the slices will be thinner and more easily cut.

Summer Constipation Dangerous.

Constipation in summertime is more dangerous than in the fall, winter or spring. The food you eat is often contaminated and is more likely to ferment in your stomach. Then you are apt to drink much cold water during the hot weather, thus injuring your stomach. Colic, Fever, Ptomaine Poisoning and other ills are natural results. Po-Do-Lax will keep you well, as it increases the bile, the natural laxative, which rids the bowels of the congested poisonous waste. Po-Do-Lax will make you feel better. Pleasant and effective. Take a dose to-night, 50c at Paull Drug Co. Ad.

Sparkville.

Miss Alice England, who has been sick for some time, is better at this writing.

Born, to the wife of Austin Gilpin, on July 23rd, a 10 pound girl. Mother and baby doing well. Austin said all he hated was he couldn't help the Democratic party by another vote.

Elrod & Co., are the best stove makers that ever struck this country.

Leslie Gadberry, who is running a family grocery between this place and Columbia, is going to put up a new store house at an early date, and he is going to try for a post office at his place of business. We would certainly be glad to have it.

Wheat threshers are plentiful in this community, and the wheat is turning out extra well. Our corn crop is looking fairly well at this writing.

Costly Treatment.

"I was troubled with constipation and indigestion and spent hundreds of dollars for medicine and treatment," writes C. H. Hines, of Whitlock, Ark. "I went to a St. Louis hospital, also to a hospital in New Orleans, but no was effected. On returning home I began taking Chamberlain's Tablets, and worked right along. I used them for some time and am now all right." Sold by Paull Drug Co. Ad.

Infection and Insect Bites Dangerous.

Mosquitoes, flies and other insects, which breed quickly in garbage pails, ponds of stagnant water, barns, musty places, etc., are carriers of disease. Every time they bite you, they inject poison into your system from which some dread disease may result. It is antiseptic and a few drops will neutralize the infection caused by insect bites or rusty nails. Sloan's Liniment disinfects Cuts, Bruises and Sores. You cannot afford to be without it in your home. Money back if not satisfied. Only 25c. at Paull Drug Co. Ad.

C. S. Hamlin, Member Federal Reserve Board.

Charles Sumner Hamlin, recently appointed a member of the federal reserve board for two years, has been assistant secretary of the treasury in charge of fiscal bureaus since last February. Mr. Hamlin had been under consideration for some time, but it is said the president desired to keep him in the treasury department. Seven members make up the board, including the secretary of the treasury and the comptroller of the currency. The five appointive members will serve respectively two, four, six, eight and ten years. The purpose of the difference in the terms of office is to divide the membership into classes.

A native of Boston and fifty-three years of age, Mr. Hamlin has had a large experience in financial affairs. He was educated at Harvard and was graduated from the law school of that university in 1886, beginning practice in Boston. During the second administration of President Cleveland Mr. Hamlin served as assistant secretary of the treasury and after leaving that department in 1897 went to Japan as special commissioner for this country. In the same year he served in the same capacity at the convention of Russia, Japan and the United States. He also represented Uncle Sam in the fur seal controversy with Great Britain. Mr. Hamlin is the author of the "Index Digest of Interstate Commerce Laws" and has written on many financial subjects. He has been prominent in politics and was prominently mentioned as the Democratic candidate for governor of Massachusetts in 1910.

Head of Naval Affairs Committee.

Perhaps no representative in congress has been more busy than Lemuel Phillips Padgett of Tennessee, chairman of the house committee on naval affairs, during the present session.

The naval affairs committee of the house has a membership of twenty-one, fourteen Democrats and seven Republicans, the same as all the other

important committees. The ranking Republican member of the committee is Thomas S. Butler of Pennsylvania.

Congressman Padgett is a native of the state he represents, a lawyer by profession and is in his fifty-ninth year. He was educated at Erskine college, South Carolina, and began the practice of law in 1879 in Columbia, Tenn., where he has always resided. In 1894 he was a presidential elector. Before being sent to congress he served one term in the Tennessee senate. He first went to Washington as a national legislator as a member of the Fifty-seventh congress and has since been regularly returned. He became chairman of the naval affairs committee when the Democrats secured control of the house.
